DETAILED ACTION

Remarks

1. In response to the amendment filed on 29-October-2005, claims 1-11 are pending in the application.

Reasons for Allowance

2. Claims 1-11 are allowed over the prior art made of record.

3. The following is a statement of reasons for allowance:

The prior art of record (Greene et al. -U.S. Patent No. 6,434,662 B1) does not disclose, teach, or suggest the claimed limitations of (in combination with all other features in the claim), a result bus operationally connecting said memory to said controller and able to communicate said search result from said memory to said controller, thereby permitting the search engine to function in a multi-way set-associative manner wherein the size of said memory is not a function of the degree of multi-way set-associativity, as claimed in Independent claims 1, and 5.

Claims 2-4, and 6-8 are allowed over the prior art made of record, because they are dependent from the allowable independent claims 1, and 5, respectively.

The prior art of record (Greene et al. -U.S. Patent No. 6,434,662 B1) does not disclose, teach, or suggest the claimed limitations of (in combination with all other features in the claim), comparing said input search value and said stored search values in said instances of the search

results retrieved in said step (d) to determine whether a respective hash collision has occurred, wherein a presumably usable said instance of the search results is one wherein a hash collision has not occurred, thereby searching the database in a multi-way set-associative manner wherein the size of the database is not a function of the degree of multi-way set-associativity, as claimed in Independent claim 9.

Claims 10-11 are allowed over the prior art made of record, because they are dependent from the allowable independent claim 9.
